

Math Night at Pine Street School

January 9, 2019

Dear Parents,

Pine Street School is pleased to announce that we will be hosting our first ever Math Night on Wednesday, January 23 from 6:00pm – 7:30pm in the school gym. Parents and students in kindergarten through grade six are invited to join us for this fun event.

John Felling from Box Cars and One-Eyed Jacks Inc. will be leading a Math Night at Pine Street School that evening. John will introduce parents and children to a wide variety of math games from the award winning Box Cars and One-Eyed Jacks series. Using cards, dice or dominoes, families will review and strengthen basic math concepts. John will provide proven ideas and strategies for learning operations, fact fluency strategies and place value. Playing together builds success and self-esteem for students while making it easy for parents to provide support and encouragement in the home setting.

There is no cost to attend, but we ask that students RSVP if they and their parents are planning to attend our Math Night. We ask that people register for this event so we can ensure we have enough handouts for everyone. Following the Math Night, parents may choose to purchase a math game to take home. Pine Street families will get a reduced price. Math games range in price from \$5 to \$10. There is no obligation to purchase anything. Students are asked to complete the following form if they are planning to attend the event, stating the number of adults and children attending.

Please contact the school if you have any questions or require further information.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeff Huculak".

Jeff Huculak M.Ed.
Principal

Please return this page with your child no later than Friday, January 18 if you and your child are planning to attend Pine Street's Math Night on January 23.

Pine Street School is hosting our first ever Math Night on Wednesday, January 23 from 6:00pm – 7:30pm in the school gym. Parents and students in kindergarten through grade six are invited to join us for this fun event.

For Kids:

- A fun way to review and strengthen basic math skills
